# Ohio's performance on population health outcomes has steadily declined relative to other states

Source: Table prepared by the **Health Policy Institute of Ohio** based on United Health Foundation America's Health Rankings and U.S. Census Bureau Current Population Survey data.

# Ohio has significant disparities for many health outcomes by race, income and geography

***Neighborhoods in nine Ohio communities accounted for 95 percent of black infant deaths and half of white infant deaths in 2013.***

# Public health strategies alone are not sufficient

# Ohio is aligning public health and coverage strategies

State Health Improvement Plan

State Innovation Model Population Health Plan

Example:  
Reduce  
Infant  
Mortality

Use vital statistics to identify at-risk women  
Align maternal and child health programs  
Promote safe sleep, folic acid, etc.  
Discourage smoking, etc.

Require enhanced care management  
Extend Medicaid to cover more women  
Financially reward improved infant health  
Reduce scheduled deliveries prior to 39 wks

- Identify at-risk neighborhoods
- Enhance care management for every woman in those neighborhoods
- Plans directly engage leaders in at-risk communities
- Surge resources to greatest need

# Aligning Ohio's capacity to improve population health

- 1** The Office of Health Transformation (OHT) and Ohio Department of Health (ODH) will convene a state working group to implement HPIO recommendations for improving the state health assessment (SHA) and updating the state health improvement plan (SHIP) in 2016
- 2** By June 2016, ODH will publish guidance to assist local health departments and tax-exempt hospitals collaborate on community health assessments and improvement plans, and introduce legislation that requires these entities to use the same three-year planning timeline and publicly report assessments and plans
- 3** OHT will work with Medicaid managed care plans and commercial health insurance plans to adopt a statewide patient-centered medical home care delivery and payment model that incorporates population health priorities into provider performance measures
