Ohio Benefits: **Successful Implementation**

- Fastest successful eligibility system implementation in the country
- Modern, flexible, interoperable solution that supports the full continuum of HHS programs – transformational not incremental
- Enabled Ohio resident self service capabilities via an online consumer portal
- Automated real time verification of applicant income using the Federal Data Hub (homeland security, social security, IRS)
- Established real time interface with Ohio Medicaid claims system
- Project costs are significantly under budget and are tracking at only 8 percent of the federal Healthcare.gov project costs

Ohio Benefits: **State and County Partnership**

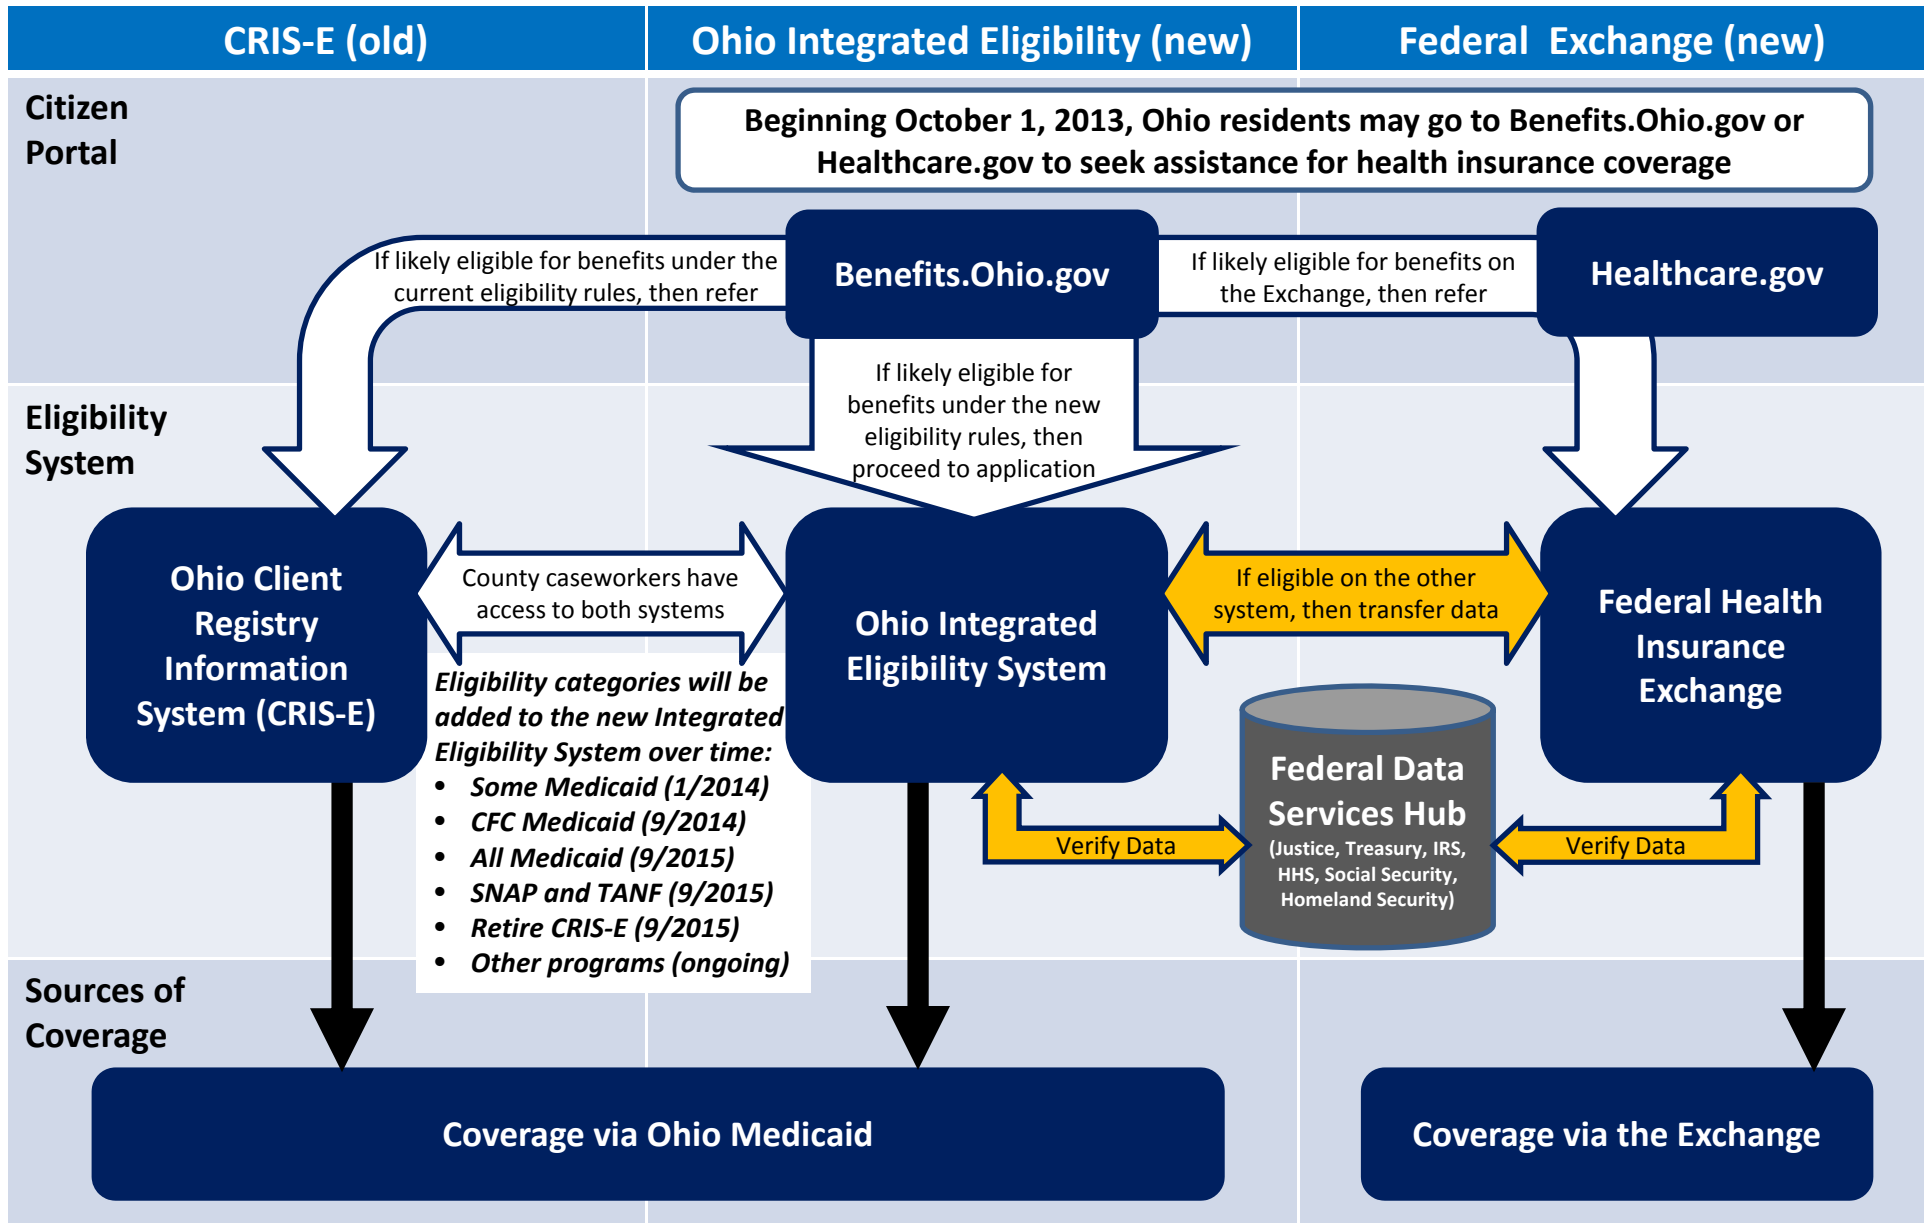

- Counties involved from the outset to design the new system
- Trained over 3,500 county case workers to use the new system
- Freed up county access to federal funding for eligibility expenses
- Delivered 10 major system releases that improve performance and incorporate county recommendations to expedite casework
- Delivered presumptive eligibility functionality that allows hospitals and other providers to enroll patients directly into Medicaid
- Converted 26,000 Cuyahoga residents from Metro Health waiver to regular Medicaid with no case worker intervention
- Created a solution to connect inmates to Medicaid coverage for inpatient services (\$18 million in annual savings for Ohio's prisons)

Ohio Benefits:

Mitigating the Impact of the Federal Marketplace

Potential Ohio Medicaid cases have been accumulating in the troubled federal health care eligibility system since Oct. 2013.

- 245,700 Ohioans' applications pending in the federal system
- 93,700 (38%) are unrelated to Medicaid benefits
- 66,000 (27%) are already in CRIS-E or *Ohio Benefits*
- 20,000 processed automatically by *Ohio Benefits* and another 39,000 are candidates for automatic processing in May (24% total)
- 27,000 (11%) are being transferred to county case workers in batches throughout May

Ohio Benefits Update

(October 1, 2013 to April 30, 2014)

SOURCE: Ohio Integrated Eligibility System, as of April 30, 2014.

1. Does not include applications still pending in the federal system, which will be processed through *Ohio Benefits* in May 2014.
2. Does not include Ohioans who became eligible for Medicaid as a result of disability or other categorical criterion that required enrollment through CRIS-E instead of Benefits.Ohio.gov.

Ohio Medicaid “Newly Eligible” Enrollment

Enrolled	Estimated	Actual*
January	58,666	96,398
February	117,332	132,265
March	175,999	171,910
April	234,665	184,671

* Medicaid coverage begins on the date of application, not the date the application was processed, which means prior months are constantly adjusted to reflect actual enrollment. As a result, January data is more accurate than February, February is more accurate than March, etc.

RE: Enrollment in Medicaid Benefits

Over the past few weeks, I have heard anecdotal concerns from various areas of the state regarding the mechanics of enrollment in Medicaid.

If you are aware of individuals within your board area who may be eligible for Medicaid benefits, please reach out and encourage them to sign-up via the web at <http://benefits.ohio.gov>.

This electronic method gives Ohio residents an easy way to check their eligibility and directly apply for benefits. It streamlines communication with the local office of Job and Family Services and reduces paperwork as compared to the paper application.
